

SieMatic Unveils MONDIAL, the Minimal-Yet-Expressive Style Collection

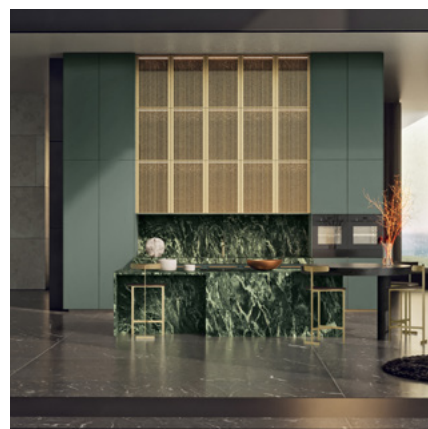

Blending materials, shapes, and colors to create an emotionally compelling kitchen experience, MONDIAL transcends the boundaries of kitchen design

(Yardley, PA, April 30, 2025) SieMatic proudly introduces a visionary new design language for the kitchen, the **MONDIAL Style Collection**. From the iconic German kitchen brand recognized for timelessly modern “handle-free” kitchen designs, MONDIAL features a unique interplay of materials, shapes, and colors blended to appeal to one’s emotions. The new style combines world-class design with luxurious finishes to form highly functional cabinetry, workspaces, storage, and more. Beautifully marrying minimalism with expressiveness, MONDIAL transcends the boundaries of kitchen design, blending prominently into its surrounding living spaces.

“MONDIAL takes a refined approach to opulence,” said Hans Henkes, President and CEO of SieMatic USA. “Striking contrasts and rich materials make MONDIAL a bold design. It’s lavish while speaking a minimalist, modern language,” Henkes adds, accentuating the collection’s fresh perspective on the art of kitchen design.

MONDIAL is characterized by an array of intriguing geometric forms, such as a semi-circular bar, round table, and cube-shaped glass-front cabinets. Varying cabinet elevations, rich wood tones, and elegant natural stone finishes also help to create visual textures for the simplistic yet sensual design. The result is a kitchen that effortlessly flows into its surroundings, blurring the lines between work and living spaces.

Designers and homeowners alike can customize MONDIAL to express their individuality through a vibrant palette of bold colors and luxurious materials. Natural stone countertop options range from limestone and granite to exquisite marble, quartzite, and the exotic green-hued gemstone, Serpentinite. The natural stones can be paired with a variety

of woods, such as Travertine Oak, Nutmeg Oak, and Dark Walnut, ensuring each kitchen is a true reflection of personal style. Inside the sleek cabinets, customizable drawer interiors cater to optimal organization and storage, merging beauty with practicality.

MONDIAL joins the timelessly elegant **PURE**, the stylishly cosmopolitan **URBAN**, and the traditional-meets-modern **CLASSIC** style collections, all available through the company's exclusive network of showrooms across North America.

About SieMatic

SieMatic is a premium kitchen brand with a long history and an international reputation for excellence in design, timeless elegance, and a high level of functionality. The company's constantly evolving reinterpretation of the modern kitchen is exemplified by the design principle behind its four style collections: **PURE**, **CLASSIC**, **URBAN**, and **MONDIAL**. SieMatic products are manufactured in Germany under environmentally responsible standards with a commitment to providing distinctive kitchen solutions. They are available in over 60 countries throughout five continents. For more information about SieMatic and its products, call (215) 604-1350 or visit siematic.com.
